Continuation of Substance of Interview including description of the general nature of what was discussed: The examiner initiated the interview to propose amendments to place the case in condition for allowance. It was apparent to the examiner that page 16, lines 6-8 and page 62, lines 19-22 of the specification indicated important aspects of the invention. The examiner proposed the changes to claims 102 and 103 to incorporate these aspects and thereby place the case in condition for allowance. The examiner also proposed additional changes and cancelling the non-elected invention. Vincent L. Carney then authorized the changes to be made by examiner's amendment.
